## 1 report of disease at UIHC

Husband says wife died of Legionnaires'

By **Brian Morelli**

Iowa City Press-Citizen

University Hospitals' battle against Legionnaires' disease has extended to nearly two years, with UIHC now reporting five cases -- including one this month -- and spending more than half a million dollars to make its water supply safe.

Since 2004, the hospital has spent \$635,000 on corrective measures such as replacing the water system and "automatic eye" faucets. A water ban was lifted in March
